

**ITEMS PROPOSED BY CIA FOR AGENDA OF MEETING OF CIB AND IAC  
AGENCIES ON QUESTION OF COORDINATION.**

In general to exchange views based on operations of the last year.  
More specifically, to consider:

1. Exchange of information on initiation of projects.
2. Extent and character of so-called "working-level" coordination with IAC analysts.
3. Deadlines for comment and concurrence. Problems of IAC agencies in meeting deadlines.
4. Authority of representatives at coordination meetings as compared with "working-level" coordination.
5. Evaluation of coordination meetings.
  - (a) Should they be optional?
  - (b) Why is there still extensive editing in spite of previous coordination?
  - (c) Why is there sometimes dissent in final concurrence although basic differences appear to be reconciled at the meeting?
6. Considerations of the function of coordination.
  - (a) Distinction between corrections due to differences in style or personal taste and those due to differences on substantial matters.
  - (b) Definition of "substantial dissent".
